and Evaluation Staff

25X1 FROM: [REDACTED]

Director of Security

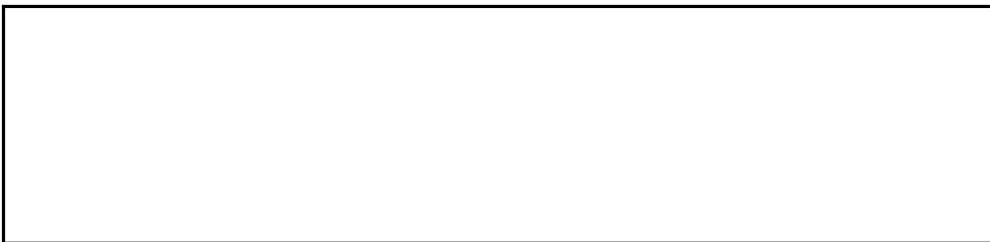

SUBJECT:

DCID on Intelligence Policy

REFERENCE:

IPC Memorandum to Members, Foreign Disclosure
Study Group, dated 21 December 1982, Concerning
Draft of Subject

1. As requested, the latest draft of subject has been reviewed; the review included coordination with the Special Security Center and the Communications Security Division. The latter components offered no comment. The following have been identified as areas of interest by the Security Analysis Group, which deals with counterintelligence within the Office of Security (OS) and the Clearance Division, which is involved in Security and Reliability Determinations (SRD):

25X1 The CI Staff grants or denies an SRD based on the findings of OS. It is presumed the Staff would absorb all of the determinations to be made by CIA and assumed this also would be beyond resources now dedicated to SRD processing.

We were asked by [] NDPC, to comment on the attached draft DCID on Intelligence Disclosure Policy. It has some serious weaknesses and [] told me the DDO will have strong objections. He, [], does not like it and he stated it will have to be redrafted. Our primary concern is the Security and Reliability Determination issue and we are saying OS cannot support the requirement as it now stands.

I do not believe this needs to go to the Director of Security for signature and if you agree with the content, suggest you sign for him.

The deadline was extended to COB 5 January (not by our request).
